

Shehab Eldin Saeed Zakaria

Software Engineer

Alexandria, Egypt | +201018365639 | dev.shehabsaid@gmail.com | linkedin.com/in/shehab1001
github.com/Shehab1001

PROFILE

Software Developer focused on building reliable, scalable, and practical solutions to real-world problems. Experienced in Python development, application development, real-time features, and working with relational databases such as PostgreSQL and SQL Server.

EDUCATION

B.Sc. in Computer Science

Oct 2020 – Jul 2024

Faculty of Science, Alexandria University | SIM Department (Software Industry & Multimedia)

- CGPA: 3.52 / 4.0 – Excellent with honor.

PROFESSIONAL EXPERIENCE

Jr. Designer | Taste Labs (Contract - remote)

Aug 2026 – Sep 2026

- Supported the development of creative visual concepts and marketing materials across digital and print platforms.
- Assisted with layout design, branding assets, social media content, and day-to-day design tasks while ensuring consistency with the brand's visual identity and project requirements.

Software Engineer | AfterQuery Experts (Contract - remote)

May 2026 – Aug 2026

- Worked on AI training and evaluation projects, reviewing LLM-generated code and technical responses for correctness, reasoning and overall quality.
- Designed and tested complex coding tasks, provided structured feedback and contributed to data annotation and RLHF workflows to improve AI model reliability.

Software Engineer – Agentic Coding | Alignerr (Contract - remote)

Jan 2025 – Jun 2026

- Evaluated 1000+ LLM-generated code responses, improving model accuracy and output reliability through structured feedback.
- Annotated and labeled AI training datasets with a consistent quality rate specializing in code quality assessment and audio annotation.

Software Developer | Military Service

Mar 2025 – Feb 2026

- Completed mandatory 1-year military service with technical supports building and maintaining systems with Python, ReactJs and SQL Server.

Coding Instructor | iSchool (Full Time - remote)

Aug 2024 – Feb 2025

- Delivered 400+ one-on-one online teaching sessions for students aged 7–18, covering a wide range of topics from block-based programming to machine learning, adapting content to different learning levels.

MERN Stack Developer Intern | Enozom Software (Internship - onsite)

Jul 2023 – Aug 2023

- Developed and delivered full-stack web game (Snakes & Ladders) using MongoDB, Express.js, React.js, and Node.js within a 2-month internship.
- Collaborated with a cross-functional development team to ship client-facing features on time, demonstrating teamwork and time management

PROJECTS

Revnivo – Python / MongoDB/ Django/ React

Full-stack productivity platform for income tracking, job discovery, application management, resume workflows, ATS analysis, notes, and support chat.

Link: <https://revnivo.vercel.app/>

Real Estate Management System – Odoo / Python / PostgreSQL

Custom Odoo application for real estate management, handling property listings, sales pipelines, and client management. Built using Odoo ORM with custom business logic, reducing manual tracking effort by automating key sales workflows.

Link: https://github.com/Shehab1001/Odoo_real_estate

Hr Loan Management – Odoo / Python / PostgreSQL

A production-ready Odoo 17 module that solves the real business problem of managing employee loans and advance salary requests with a full multi-level approval workflow and automatic payroll deduction integration.

Link: https://github.com/Shehab1001/hr_loan_management

Price & News Monitor Dashboard – Python / Streamlit

Interactive Python dashboard tracking price changes across 10+ laptop models over time and displaying live news headlines via API integrations, reducing manual research time for end users.

Link: <https://monitoring01.streamlit.app/>

FreshCart E-Commerce Website – React.js / REST APIs

Full-featured e-commerce platform with authentication, cart management, and order processing. Integrated 3+ third-party APIs to deliver a seamless shopping experience with real-time product updates.

Link: <https://fresh-cart-rosy.vercel.app/>

CERTIFICATIONS & BADGES

- Python Certificate – FreeCodeCamp (Apr 2026)
- Foundational C# with Microsoft – FreeCodeCamp (Feb 2025)
- Microsoft Student Ambassadors Cloud Skills Challenge – Event Host Badge (Jul 2024)
- Beta Microsoft Student Ambassador Certificate (May 2024)
- Microsoft Developer Badge – Credly (Jan 2023)

TECHNICAL SKILLS

- **Backend & Frameworks:** Odoo, Django, Python, Node.js, Express.js, C#
- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS
- **Databases:** PostgreSQL, SQL Server, MongoDB
- **Tools & Platforms:** Git, GitHub, Streamlit, REST APIs
- **AI/ML:** Data Labeling, Audio Annotation, LLM Evaluation.
- **Soft Skills:** Communication, Problem Solving, Adaptability, Attention to Detail, Time Management, Critical Thinking.
- **Languages:** Arabic (Native), English (Fluent)

EXTRACURRICULAR ACTIVITIES

BETA Microsoft Student Ambassador | Microsoft

Jan 2024 – Jan 2026

- Hosted online meetings and events connecting 70+ students with Microsoft learning resources and developer tools.
- Built community engagement and public speaking skills by organizing technical sessions and developer workshops.
